IDENTIFIERS	*Colorado

ABSTRACT

This annual report provides information on certificates and degrees awarded by Colorado's publicly and privately supported higher education institutions from fiscal years 1988 through 1993. Data and comparative analysis are provided on degrees awarded by institution type, degree type (including information on degree type by gender and ethnicity), and field of study for public and non-public institutions. The bulk of the report consists of four appendixes which provide: (1) data on degrees awarded by institution; (2) detailed tables on degrees awarded by field and subfield of study; (3) an alphabetical list of degree program names and codes; and (4) tables of certificates and degrees awarded by vocational schools and private independent institutions. EXECUTIVE SUMMARY

This report is an annual publication by the Colorado Commission on Higher Education (CCHE) that provides information on certificates and degrees awarded. The number of certificates and degrees granted by the 28 Colorado publicly supported higher education institutions reached an all time high in FY 1992-93. Program areas and degree level attainment have also changed over the last six years.

Some highlights of the report include:

- Colorado public colleges and universities awarded 28,713 certificates and degrees in FY 1993. Twenty-five percent were pre-baccalaureates; 55% were baccalaureate degrees; 16% were master's degrees; 1.5% were first-professional degrees; and 2% were doctoral degrees.

  In FY 1988, the higher education system conferred 22,911 certificates and degrees. Twenty-three percent were pre-baccalaureates; 57% were baccalaureates; 15% were master's degrees; and about 2% each were first-professional and doctoral degrees.

- Although the research university sector granted more degrees (10,995 in FY 1993 vs 9,303 in FY 1988, an 18% increase), most of the growth over the six-year period was in the university and college sector (10,158 in FY 1993 vs 8,061 in FY 1988, a 26% increase). Percentagewise, the community college sector had the highest rate of growth (5,309 in FY 1993 vs 3,857 in FY 1988, a 38% increase).

- The largest number of degrees granted by public institutions are bachelor's degrees (15,877 in FY 1993). Table 1 shows the percent of bachelor's degrees granted by racial/ethnic category in FY 1988 and FY 1993. The percent of racial/ethnic minorities receiving bachelor's degrees increased from 8.8% to 10.7%[1].

Table 1 - Bachelor's Degrees by Ethnicity

Race/Ethnicity	FY 88	FY 93	% in FY 88	% in FY 93
Blacks	186	281	1.4%	1.8%
Native Americans	93	120	.7%	.8%
Asian	335	432	2.6%	2.7%
Hispanic	534	860	4.1%	5.4%
White	11,081	13,628	85.1%	85.8%
Non-Resident Aliens	240	222	1.8%	1.4%
Unreported Ethnicity	547	334	4.2%	2.1%

[1]While it is possible that the improved reporting of ethnicity, from 4.2% to 2.1% unreported, accounts for the increased minority representation, it is more likely that awards with unreported ethnicity distribute in the same proportions as those where the ethnicity is reported.

- The percent change among the top five bachelor's degree program areas awarded in FY 1993 were as follows:

  #1 Business and Management stayed almost constant, from 2,927 in FY 1988 to 2,953 in FY 1993.

  #2 Social Sciences increased 73%, from 1,520 to 2,628.

  #3 Psychology increased 54%, from 684 to 1,056.

  #4 Engineering decreased 19%, from 1,254 to 1,011.

  #5 Communications increased 44%, from 698 to 1,006.

For the first time, this report includes data on certificates and degrees granted by vocational schools and private independent institutions in Colorado that participate in the Integrated Postsecondary Education Data System (IPEDS) survey. The Commission coordinates Colorado IPEDS for the National Center for Education Statistics.

- An additional 93 institutions awarded 15,733 certificates and degrees in FY 1993.

INTRODUCTION

The *Degrees Granted Report* is disseminated annually by the Colorado Commission on Higher Education. This summary focuses on comparisons between fiscal years 1987-1988 and 1992-1993. Additional data can be obtained from the CCHE *Digest of Colorado Postsecondary Education Statistics*.

Analysis in this report is provided by institutional sector, degree level, and program area. Degree level is detailed by racial/ethnic and gender categories with a concentration on baccalaureate degrees. For the first time, private and proprietary schools data is provided and compared to public colleges and universities.

Data for this report was gathered from three sources, submitted and approved by the individual institutions. Data in Table 4 that is prior to FY 1986 was collected in summary form through the Higher Education General Information Survey (HEGIS). Beginning in FY 1986, data for the public institutions was collected on the degrees granted file of the CCHE Student Unit-Record Data System (SURDS). FY 1993 data for area vocational schools, independent, private, and proprietary schools was gathered from the Integrated Postsecondary Education Data System's (IPEDS) Completions or Consolidated survey forms.

Terms and definitions are provided at the end of the report. The appendices include six years of data, 1988 through 1993. Appendix A contains a listing of degrees awarded by institution. Appendix B contains a listing of degrees aggregated by program area and shows all the institutions that granted awards in a particular program. Appendix C is an alphabetical list of program names with a crosswalk to the program areas in Appendix B. Appendix D is a list of the 93 Colorado institutions participating in the IPEDS data collection process, along with total degrees awarded in FY 1993.

Colorado Public Higher Education System

Colorado has 28 state-supported higher education institutions. Based upon institutional role and mission and types of degrees granted, several institutional sectors are used in this report. The institutions within each sector, along with institutional abbreviations, are shown in Table 2.

Program Areas

Colorado offers more than 1,000 state-approved degree programs at public higher education institutions. The programs are classified using the Federal Classification of Instructional Programs codes (CIP codes). The CIP code system was designed to group similar programs. The full program code is six digits long. The first two digits of the code are designated as program areas. Table 3 shows the two-digit program area listing. A further summary of program areas is given in Table 9. In 1990, CIP Code areas "06 - Business and Management" and "07 - Business (Administrative Support)" were combined into a new code, "52 - Business

and Management". Similarly, codes "17 - Allied Health" and "18 - Health Sciences" were combined into "51 - Health Sciences".

DEGREES AWARDED BY SECTOR

In FY 1993, Colorado public colleges and universities awarded 28,713 total certificates and degrees (see Table 4). This is an 11 year high and a 6% increase over the number of degrees awarded in FY 1992. FY 1988 represents the beginning of a growth increase within this 11-year period. All figures and tables in this report compare the FY 1988 to FY 1993 data.

Although the research university sector still grants more degrees (10,995 in FY 1993 vs 9,303 in FY 1988), most of the new growth over the six-year period was in the university and college sector (10,158 in FY 1993 vs 8,061 in FY 1988). Percentagewise, the community college sector had the highest rate of growth (5,309 in FY 1993 vs 3,857 in FY 1988, a 38% increase).

The **research university sector** increased the number of degrees awarded from 9,303 in FY 1988 to 10,995 in FY 1993, an **18% increase**. CSM awarded the same number of degrees in FY 1988 and FY 1993 after some interim decrease in total degrees awarded. Both CSU and UCB increased degree production since FY 1988, with consistent increases at UCB.

The **university and college sector** increased the number of degrees awarded from 8,061 to 10,158 in FY 1993, a **26% increase** since FY 1988. Eight of the nine schools in this sector increased degree production. UNC still grants the largest number of degrees in this sector (2,327 in FY 1993). The most dramatic rate increases were at UCCS (+48%) and UCD (+41%).

The **community college sector** increased the numbers of certificates and degrees awarded from 3,857 to 5,309, a **38% increase** since FY 1988. In FY 1990, FRCC combined with Larimer County Area Vocational School and now awards more certificates and degrees than any other community college in this sector. CCA and LCC both had a greater than 100% increase in degree production. PPCC was the only college in this sector that decreased awards conferred between FY 1988 and FY 1993.

UC-HSC had a **32% increase** in the number of degrees awarded. For years, the number of awards remained relatively constant at nearly 500 degrees. After the pharmacy program moved from UCB to UC-HSC in FY 1992, the number of degrees increased to over 600 in FY 1992 and FY 1993.

The **local district college sector** increased awards by **33%**; all schools increased award production except NJC. AIMS granted the largest number of awards in this sector (753). The school with the greatest growth rate in the sector was CMC at 143%, from 215 to 523 awards in FY 1993.

DEGREES AWARDED BY LEVEL

Over half of the degrees granted in both FY 1993 and FY 1988 were bachelor's degrees (15,877 in FY 1993 compared to 13,016 in FY 1988). This is a 22% increase in the number of bachelor's degrees awarded. The proportion of vocational associates, bachelor's, and first-professional/doctoral degrees have declined, while certificates, academic associates, and master's degrees have increased.

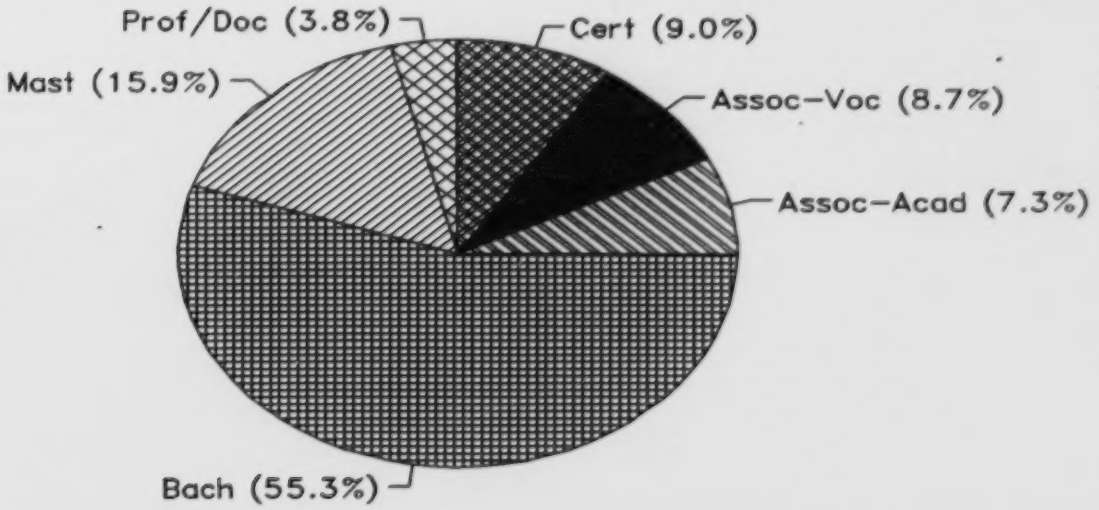

Figure 1 - FY 93 Degrees by Level

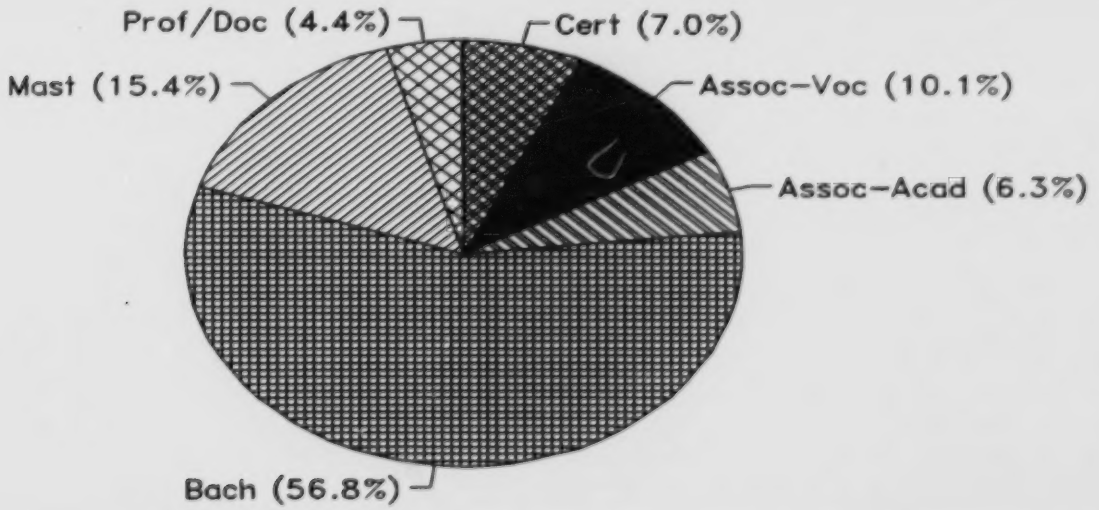

Figure 2 - FY 88 Degrees by Level

Degree Level by Racial/Ethnic Groups

Although under-represented ethnic groups have increased their participation rate from 9.5% in FY 1988 to 11.6% in FY 1993, there are differences by degree level.

- There was a very large increase in the representation of ethnic minorities, especially Hispanic students, at the first-professional degree level in FY 1993 compared to FY 1988 (16.9% vs 6.9%).
- Racial/ethnic minorities increased their representation at all levels except for doctoral degrees, where their percentage decreased from 6.0% to 5.3%.
- Ethnic minorities received fewer master's and doctoral degrees than non-U.S. citizens (non-resident aliens).
- Non-Resident Aliens increased their representation at the doctoral level from 17.5% in FY 1988 to 29.4% in FY 1993, and at the masters level from 8.1% to 9.5%.
- Improved reporting practices at the public institutions resulted in a decrease in the unreported (UnRptd) category.

Bachelor's Degrees by Ethnicity

Bachelor's degrees account for most of the degrees awarded in the higher education system. Figures 3 through 6 focus on the racial/ethnic composition of this degree level. Racial/ethnic minorities increased their representation from 8.8% in FY 1988 to 10.7% in FY 1993.

The number of bachelor's degrees awarded to ethnic minorities increased. The largest increase was for Hispanics, from 4.1% of the total bachelor's degrees awarded to 5.4% (Figures 4 and Figure 6).

In decreasing order, by number of degrees awarded in FY 1993:

1) Whites received 11,081 baccalaureate degrees in FY 1988 compared to 13,638 FY 1993, a 23% increase.

2) Hispanics received 534 baccalaureate degrees in FY 1988 compared to 860 bachelor's degrees awarded in FY 1993, a 61% increase.

3) Asians received 335 baccalaureate degrees in FY 1988 compared to 432 degrees awarded in FY 1993, a 29% increase.

4) Unreported racial/ethnic information decreased from 547 baccalaureate degree recipients in FY 1988 to 334 in FY 1993, a 64% decrease.

5) Blacks received 186 baccalaureate degrees in FY 1988 compared to 281 in FY 1993, a 51% increase.

6) Non-Resident Aliens received 222 baccalaureate degrees in FY 1993 compared to 240 in FY 1988, an 8% decrease.

7) Native Americans received 93 baccalaureate degrees in FY 1988 compared to 120 in FY 1993, a 29% increase.

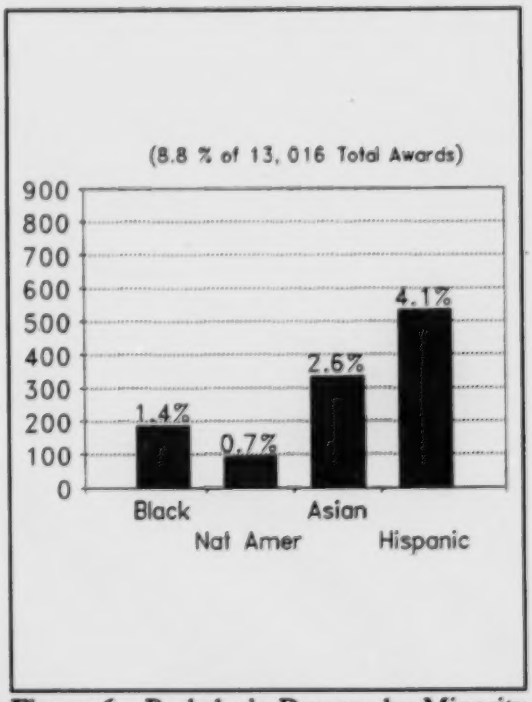

Figure 6 - Bachelor's Degrees by Minority Groups in FY 88

Degree Level by Gender and Ethnicity

In both FY 1993 and FY 1988, more females than males received degrees at every degree level except first-professional and doctoral. Several other differences by gender, ethnicity, and degree level are apparent (Table 7 and Table 8).

- Males had a slight decrease in numbers of conferred "AAS - vocational" associate degrees.
- Females had large increases in "AA/AS/AGS - Academic" associate and bachelor's degrees.
- There were no Black female first-professionals in FY 1993.

BEST COPY AVAILABLE

- The number of racial/ethnic minorities receiving first-professional degrees increased from 6.9% in FY 1988 to 16.9% in FY 1993.

- Generally, racial/ethnic minorities comprise a smaller percentage of bachelor's and advanced degrees.

Degrees by Summary Program Area - Public Institutions

At the certificate level, the five largest areas in FY 1993 were: Health Science, Technical Trades, Protective Services, Business & Management, and Engineering Technology. Overall, certificates increased by almost 62% (1,596 to 2,585) with most of the growth in Health Sciences and Protective Services.

At the associate vocational level, the five largest fields were the same as for certificates, with Health Sciences the largest field in FY 1993. Overall, the number of vocational associate degrees stayed fairly constant (from 2,313 to 2,485). Academic associate degrees increased by nearly 50% (1,453 to 2,104).

Table 11 compares awards of bachelors, masters, doctoral, and first-professional degrees in FY 1988 and FY 1993 by the summary fields in Table 9.

At the baccalaureate level, the five largest degree areas were Business and Management, Social Sciences, Psychology, Engineering, and Communications. Overall, there were about 1,500 more bachelors degrees, with the largest growth in Social Sciences. There were decreases in the fields of Computer/Information Science, Engineering, and Mathematics.

The decrease in the number of Education degrees resulted from a change in the way the state education system educates prospective teachers. Most education degrees at the undergraduate level were discontinued in FY 1986 with a four-year phase-out. Students pursuing teaching careers now major in an academic discipline rather than Education. Students become

credentialed as teachers by completing required certification courses, and are reported in the individual disciplines. Education degrees at the baccalaureate level reflect specialty areas such as Special Education, Music Education, and Physical Education.

At the master's degree level, the top five fields in FY 1993 were Education, Business & Management, Engineering, Health Sciences, and Psychology. Overall, the number of master's degrees increased by almost 30% (3,518 to 4,571).

The number of doctoral degrees increased by 15%. The five largest fields in FY 1993 were Engineering, Physical Sciences, Education, Life Sciences, with a tie for fifth largest, Psychology and Social Sciences.

The number of first-professional degrees stayed relatively constant (450 to 444), with a small decline in Health Sciences (290 to 278) and a small increase in Law (160 to 166).

Degrees by Summary Program Area - Non-Public Institutions

Ninety-three vocational and private independent institutions participated in the IPEDS Completion or Consolidated surveys[1]. (See Appendix D for a complete list of non-public schools along with degrees conferred). These schools awarded 15,733 certificates and degrees, compared to 28,713 certificates and degrees awarded by 28 public colleges and universities in FY 1993.

The non-public institutions awarded 4,306 Business & Management awards. Nearly half of these awards were certificates. The second largest program area was Technical Trades, with 3,437 awards. This summary area includes Construction Trades, Mechanics and Repairers, Precision Production, Transportation, and Consumer/Personal Services. (See Table 9 for program summary).

The non-public institutions produced nearly as many first-professional awards as the public institutions (369 compared to 444 -- Tables 12 and 11).

* The "All Others" summary area consists of unreported areas, primarily by out-of-state schools operating in Colorado.

[1]An additional 81 proprietary schools did not participate in IPEDS in FY 1993 but are authorized to operate by the Colorado Division of Private Occupational Schools. If they graduated 70% of their students, as mandated by law, they would contribute another 6,369 certificates.

Vocational and private independent institutions produce mostly certificate level awards (50.3%) while public institutions produce mostly bachelor's level awards (55.3%) (Figures 7 and Figure 1).

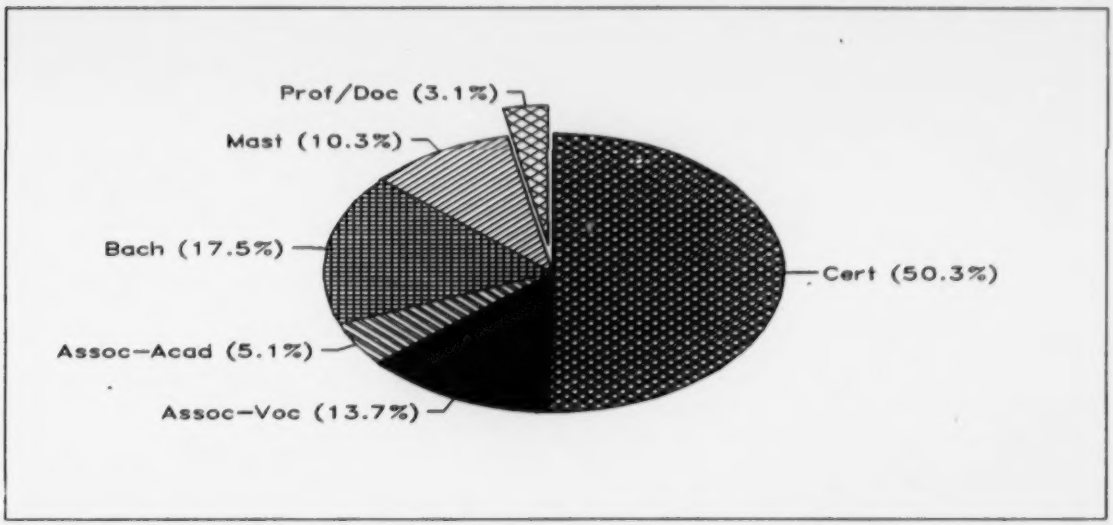

Figure 7 - FY 93 Degrees by Level for Non-Publics

DEFINITIONS

Definitions By Degree Level

CERTIFICATES: Requires the completion of a program that would be completed in 30 to 120 credit hours. Includes 1, 2, and 4-year certificate programs, as well as post-bachelor's and post-master's certificates (SURDS[1] degree level code 01, 02, 03, 04, or 05).

ACADEMIC ASSOCIATE: Normally requires at least 2, but less than 4 years of full-time equivalent college work in an academic field of study (SURDS degree level code 11, 12 or 13).

VOCATIONAL ASSOCIATE: Normally requires at least 2, but less than 4 years of full-time equivalent college work whose expressed intent is to impart work-related knowledge and skills (SURDS degree level code 11, 12 or 13).

BACHELOR: Normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. Includes all bachelor's degrees conferred in a Cooperative or Work-Study Plan or Program. Also includes bachelor's degrees in which the normal 4 years of work is completed in 3 years (code 21).

MASTER'S: Requires the successful completion of a program of study of at least the full-time equivalent of 1, but not more than 2 academic years of work beyond the bachelor's degree (SURDS degree level code 31).

FIRST PROFESSIONAL: Requires completion of a program that meets all three of the following: (1) Completion of the academic requirements to begin practice in the profession; (2) At least 2 years of college work prior to entrance to the program; and (3) A total of at least 6 academic years of college work to complete the degree program, including prior required college work, plus the length of the professional program itself. The following fields are valid first-professional degrees in Colorado public institutions (SURDS degree level code 41):

Dentistry (D.D.S. or D.M.D.)
Medicine (M.D.)
Veterinary Medicine (D.V.M.)
Law (L.L.B. or J.D.)
Nursing (N.D.)
Pharmacy (D.Phar.)

---

[1]Student Unit-Record Data System (SURDS) is the automated data system used by the Colorado Commission on Higher Education to collect data about students (see Data Dictionary in CCHE Policy Manual). The system consists of five files: 1) Enrollment, 2) Degrees Granted, 3) Undergraduate Applicant, 4) Financial Aid, and 5) Colorado Student Incentive Grant (CSIG).

Other Federally-Recognized First Professional Degrees

Osteopathic Medicine (D.O.)
Podiatry (Pod.D. or D.P.)
Optometry (O.D.)
Chiropractic (D.C. or D.C.M.)
Theology (m.Div., M.H.L., B.D., or Ordination)

DOCTORAL: Requires work at the graduate level that terminates in a doctor's degree. The doctor's degree classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field (SURDS degree level code 51).

Definitions By Race/Ethnicity

The ethnic categories used throughout this report are those defined by the SURDS DATA DICTIONARY and are consistent with the United States Civil Rights definitions. These definitions are as follows:

UNREPORTED: This category is used ONLY if the student did not select a racial/ethnic designation and the postsecondary institution finds it impossible to place the student in one of the racial/ethnic categories during the established enrollment procedures or in any post-enrollment identification or verification process.

NON-RESIDENT ALIEN: A person who is not a citizen or national of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. Resident aliens, who are not citizens or nationals of the United States and who have been lawfully admitted for permanent residence (and who hold alien registration receipt cards -- Form I-551/155), are to be reported in the appropriate racial/ethnic categories along with United States citizens.

BLACK, NON-HISPANIC: A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).

NATIVE AMERICAN OR ALASKAN NATIVE: A person having origins in any of the original peoples of North America, and who maintains cultural identification thorough tribal affiliation or community recognition.

ASIAN OR PACIFIC ISLANDER: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

HISPANIC: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

WHITE, NON-HISPANIC: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

SOURCES OF DATA

Data on degrees conferred was gathered from three data collection survey mechanisms submitted by the institutions:

1) Prior to fiscal year 1986, the Higher Education General Information Survey (HEGIS),

2) the Student Unit-Record Data System (SURDS), and

3) Integrated Postsecondary Education Data System (IPEDS) Completion and Consolidated survey forms.

The degrees reported represent the total number of degrees conferred, not the number of students receiving degrees. The two numbers may not be identical since a student may receive more than one academic award in the fiscal year.

University of Colorado - Health Sciences Center 38
University of Northern Colorado 39
University of Southern Colorado 42
Western State College 43

[1] Programs are listed in Classification of Instructional Programs (CIP code) order with the most current program name changes. As nearly as possible, open programs which did not grant degrees in a fiscal year have a "zero" in the column. A blank column was the default and was intended to indicate that the program was not yet open or had closed in the fiscal year. See Appendix B for general area categories and Appendix C for an alphabetical crosswalk by program name to CIP code.

[1] Programs are listed in area order by CIP code with the most current program name changes. As nearly as possible, open programs which did not grant degrees in a fiscal year have a "zero" in the column. A blank column was the default and was intended to indicate that the program was not yet open or had closed in the fiscal year. See Appendix A for a list by institution and Appendix C for an alphabetical list by program name to CIP code.

[1] If you know a program name and need to lookup the CIP code, use this appendix. Program names are names as of 1993. New program names, somewhere in the system, are listed with a single asterisk while new programs are listed with a double asterisk. Some standard programs, like Liberal Arts and Nursing, opened in FY 93 at MESA. See Appendix A for a listing by institution and Appendix B for general area categories.

Appendix D

Vocational Schools and Private Independent Institutions by Sector and Program 1

Vocational Schools and Private Independent Institutions by Sector and Program - Detail 4

Additional Proprietary Schools - Non-IPEDS, Estimated Degrees in Alphabetical Order 13

This is the first time the Commission has compiled a degrees granted report this comprehensive from various data sources. The following table lists a modified federal higher education sector listing covered in these appendices.

Sector Order

SecOrd	Gen SecOrd Name
01	Public, 4 year or above
02	Public, 2 year
03	Local Districts
04	Public, Less than 2 Year
05	Independent
06	Private, Non-Profit & For-Prof(4&2)
07	Div of Priv Occup Schools (Enr93)
08	Out-of-State
09	Correspondence
10	Federal Institution

Sectors 01 through 03 are covered in Appendix A and B. These sectors are the standard Degrees Granted Report collected through SURDS. Sector 04 (Public, Less than 2 Year) consists of six area vocational schools. These schools submit data through IPEDS, except the Emily Griffith Opportunity School, which continues to participate in SURDS.

Sector 05 has various data submittal options and includes three independent colleges: 1) Colorado College (CC), 2) Regis University (REGIS), and 3) University of Denver (DU). DU and REGIS partially participate in the SURDS collection process. All of CC's data come from the IPEDS survey.

Sector 06 and 07 consist of private, non-profit and for-profit schools. Schools in sector 06 submit degrees data through the IPEDS survey process. Data for sector 07 (see table starting on page 13 of this appendix) comes from an estimated graduation rate of 70% of enrollment. The Division of Private Occupational Schools (DPOS) provides enrollment data for these schools. Some of the schools in sector 06 are also part of the Division but the IPEDS form was preferable to an estimate.

Sector 08 contains schools which are based out-of-state with Colorado branches. Information from these schools were obtained by telephone contact to each of the seven schools. These schools are not included in the state total.

Sector 09 consists of a correspondence school based in Colorado with the majority of their students listed as non-Colorado residents. This school is not included in the state total.

Sector 10 consists of the United States Air Force Academy, a federal institution based in Colorado. The majority of their students are not Colorado residents. This school is not included in the state total.
